

STREAM
the **MUSIC**® way

VIRTUAL EVENTS HYBRID EVENTS

ENHANCED FORMATS FOR CORPORATE EVENTS AND FUNDRAISERS

No two streaming events are alike, and all require careful planning and logistics coordination. As enhancements are added, the investment in equipment and technicians become important considerations. Our team will help you determine the optimal streaming design to meet your expectations. Here are a few options to make your event as engaging as possible:

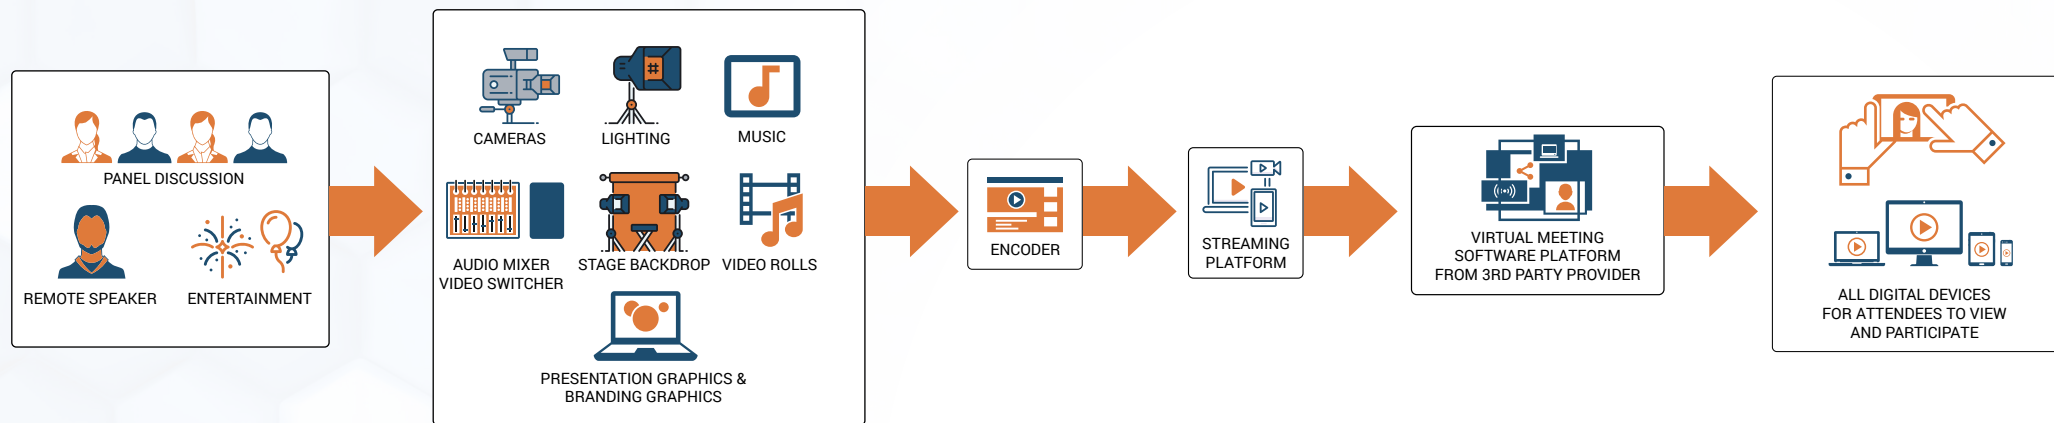

- Dramatically enhanced visuals using multiple cameras, video monitors, and lighting effects
- Interface your broadcast with popular event management platforms that incorporate polling response, sponsor recognition graphics, and Q&A interaction with viewers
- Fundraising events may utilize existing online bidding platforms as part of the virtual experience
- Incorporate interviews, panel discussions, or town hall meeting formats
- Interact with presenters or performers in remote locations
- Add live or pre-recorded music and video presentations as well as promotional/informational videos to enhance your event, entertainment options (comedian, singer/songwriter, etc)
- Distribute meeting “care” packages in advance to viewers, that include branding materials, printed presentation support materials, logo’d merchandise, specialty drink recipes, and snacks to help simulate the experience of being at a live event.

Enhanced Virtual Packages: \$5000+
(Pricing based on specific elements used)
